

## Mammals of the UNF Campus

this is a list of possible species derived from a 1999 UNF inventory by Dr. Kerry Clark, Dona Kerlin, a bat list by Laura Finn (Fly By Night, Inc.) and the Mammals of Florida website, <http://www.mammalsociety.org/statelists/flmammals.html>.

species that have been observed since 2008 are indicated

ORDER/Family	Common Name	Species	Status	Distribution	Comments
<b>MARSUPIALIA</b>					
Didelphidae	Virginia opossum	<i>Didelphis virginia</i>	common	statewide	observed
<b>INSECTIVORA</b>					
Soricidae	Least shrew	<i>Cryptotis parva</i>	common	statewide except for Keys	observed
	Southeastern shrew	<i>Sorex longirostris</i>	uncommon	north Fla., south through C Fla. and on central ridge through southcentral Fla.	1999 inventory Donna Bear inventory
	Northern short-tailed shrew	<i>Blarina carolinensis</i>	uncommon	North and central FL.	Donna Bear inventory
Talpidae	Star-nosed mole	<i>Condylura cristata</i>	peripheral; rare	Okefenokee area of N Fla.; possibly in Leon Co.	
	Eastern mole	<i>Scalopus aquaticus</i>	common	statewide except for Keys	tunnels observed
<b>CHIROPTERA</b>					
Molossidae	Brazilian free-tailed bat	<i>Tadarida brasiliensis</i>	common	statewide except for Keys	observed by Laura Finn
Vespertilionidae	Rafinesque's big-eared bat	<i>Corynorhinus rafinesquii</i>	rare	statewide except southern tip of peninsula and Keys	range includes Jacksonville
	Big brown bat	<i>Eptesicus fuscus</i>	common	statewide except for Keys	range includes Jacksonville
	Silver-haired bat	<i>Lasionycteris noctivagans</i>	peripheral; rare	extreme N Fla.	present in Jacksonville in winter
	Eastern red bat	<i>Lasiurus borealis</i>	uncommon	panhandle and N1/4 of peninsula	Observed Feb. 2014, Justin Lemmons
	Hoary bat	<i>Lasiurus cinereus</i>	uncommon	panhandle and N1/2 of peninsula	present in Jacksonville in winter
	Northern	<i>Lasiurus</i>	common	statewide except	observed by

	yellow bat	<i>intermedius</i>		southern tip of peninsula and Keys	Laura Finn
	Seminole bat	<i>Lasiurus seminolus</i>	common	statewide except southern tip of peninsula and Keys	observed by Laura Finn
	Southeastern bat	<i>Myotis austroriparius</i>	common	cave habitats in panhandle and, disjunct, northeastern and northcentral peninsula	observed, J. Lemmons 2014
	Evening bat	<i>Nycticeius humeralis</i>	common	statewide except for Keys	observed by Laura Finn
	Eastern pipistrelle	<i>Pipistrellus subflavus</i>	uncommon	panhandle and N 1/2 to 2/3 of peninsula	observed by Laura Finn
<b>XENARTHRA</b>					
Dasypodidae	Nine-banded armadillo	<i>Dasyus novemcinctus</i>	common	statewide, except possibly some parts of Everglades	observed
<b>LAGOMORPHA</b>					
	Cottontail rabbit	<i>Sylvilagus floridanus</i>	common	statewide except Keys	observed
	Marsh rabbit	<i>Sylvilagus palustris</i>	common	statewide including Keys	observed
<b>RODENTIA</b>					
Castoridae	Beaver	<i>Castor canadensis</i>	locally common	panhandle and N 1/3 of peninsula, except coastal areas	not observed
Sciuridae	Southern flying squirrel	<i>Glaucomys volans</i>	common	statewide except Keys and possibly southwest peninsula	observed
	Eastern gray squirrel	<i>Sciurus carolinensis</i>	common	statewide except lower Keys	common
	Fox squirrel	<i>Sciurus niger</i>	rare or locally uncommon	statewide except Keys; possibly extirpated in southeastern peninsula	observed, 2010
Geomyidae	Southeastern pocket gopher	<i>Geomys pinetis</i>	locally common	panhandle and N 1/2 to 2/3 of peninsula	not observed
Myocastoridae	Nutria	<i>Myocastor coypus</i>	introduced	Duval Co. and panhandle populations; possibly	2013 report of an individual

				established statewide except Keys	
Muridae	Marsh rice rat	<i>Oryzomys palustris</i>	locally common	statewide in saltmarsh and associated habitats	
	Eastern harvest mouse	<i>Reithrodontomys humulis</i>	locally common	panhandle and N 2/3 of peninsula in oldfields, grasslands, and fields	
	Cotton mouse	<i>Peromyscus gossypinus</i>	common	statewide in forests and mixed forest/grasslands	1999 inventory, common
	Florida mouse	<i>Podomys floridanus</i>	rare	central peninsula, mostly in habitats along central ridges	1999 inventory (listed as common)
	Golden mouse	<i>Ochrotomys nuttalli</i>	locally common	panhandle and N 1/2 of peninsula	1999, present
	Hispid cotton rat	<i>Sigmodon hispidus</i>	common	statewide	observed
	Round-tailed muskrat	<i>Neofiber alleni</i>	locally common	peninsula and isolated populations in Apalachicola and Okefenokee areas	

### CARNIVORA

Canidae	Coyote	<i>Canis latrans</i>	uncommon or locally common	statewide	tracks and scat observed 2010, animal sighted 2011
	Red fox	<i>Vulpes vulpes</i>	uncommon or locally common	statewide	tracks observed
	Gray fox	<i>Urocyon cinereoargenteus</i>	uncommon or locally common	statewide	observed
Ursidae	Black bear	<i>Ursus americanus</i>	rare or uncommon	localized populations statewide except Keys	rarely observed, not resident
Procyonidae	Raccoon	<i>Procyon lotor</i>	abundant	statewide	observed
Mustelidae	Long-tailed weasel	<i>Mustela frenata</i>	rare	statewide except Everglades area and Keys	
	Mink	<i>Mustela vison</i>	rare	coastal marshes in W panhandle, Big Bend area, NE area, and	

	River otter	<i>Lutra canadensis</i>	locally common	Everglades mostly freshwater habitats, primarily rivers and streams, statewide except Keys	Observed three in March 2015, J. Lemmons and Kacie Smith
Mephitidae (formerly Mustelidae)	Striped skunk	<i>Mephitis mephitis</i>	common	statewide except Keys	observed
Felidae	Bobcat	<i>Lynx rufus</i>	Common	statewide, including northern Keys	tracks observed occasionally, photo 2014
Felidae	Panther	<i>Puma concolor</i>	One report	endangered	Owen Wilson and Ralph Glover saw one when Stadium was being built

**ARTIODACTYLA**

Suidae	Feral pig	<i>Sus scrofa</i>	locally common	statewide except Keys	Observed in the past, removed
Cervidae	White-tailed deer; Key deer	<i>Odocoileus virginianus</i>	common or locally abundant; rare	statewide except Keys; Keys	Observed
